Rob and Bill

Tierra submitted the attached QAPP to perform MB and SB bathymetry surveys in Newark Bay. Page 73 shows where they propose to do multi-beam and single beam. The zipped file with the equipment specs did not make it through our firewall, I have asked Carlie to resend it, so I will forward as soon as I get it. Since we want Tierra to do this survey soon, do you think you can send comments to me by November 26? Let me know if you need more time.

Thanks

Eugenia,

Please find attached the Quality Assurance Project Plan for the Multi-beam and Single-beam Bathymetric Survey in Newark Bay. The equipment specifications have been provided separately as a zip file because they are protected files and could not be combined. Please let us know if you have any questions as you complete your review.

Thanks,

Carlie
